PROGRAM DETAILS

Aerospace Camp Experience (ACE) Program

Flight Camp (Grades 1&2)

Explore the world of flight through fun, hands-on activities and games. Each week campers will learn about the four forces of flight, tour King County International Airport. Campers make models, toys and crafts to take home every day.

Aerospace Explorers (Grades 3&4)

Discover new horizons in space exploration and aviation as you take flight in the Aviation Learning Center and blast water-fueled rockets high into the air. Each week our knowledgeable staff will lead you in fun and educational activities, games, and crafts.

Planetary Voyagers (Grades 5–7)

Take a trip that's out of this world in our Challenger Learning Center. Every camper gets to practice their astronaut skills in a microgravity activity at a local pool in addition to building robots, launching rockets, designing planes, and so much more!

Restoration Camp (Grades 5–8)

See how airplanes are transformed from spare parts to museum artifacts! View commercial airplane assembly at Boeing's Everett plant and then work with your fellow campers to build a kit plane. Visit the Kirsten Wind Tunnel at the University of Washington to see how airplanes are tested. Go to the Flying Heritage Collection to see their assortment of restored, flyable, aircraft.

Advanced Camp (Grades 7–9)

Each week, campers will get to pilot a Cessna around the Puget Sound with a certified flight instructor from Wings Aloft. Prepare for your flight in the Museum's Aviation Learning Center, and explore space in a Challenger Learning Center mission. Each camp includes an overnight on Thursday.

ACE Apprentices (Grades 10-12)

ACE Apprentices is a pathway of the Museum Apprentice Program (MAP) where participating students will learn about all aspects of a summer camp. Each Apprentice will spend time interacting with campers, developing programs, and helping out with other camp-related duties. Apprentices will also have two day-trips during the summer. ACE Apprentices must complete one week of training (July 6 – 10).

Animation Mini-Camp at Atlantic Street Center Summer Academy

Learn stop-motion animation techniques with Reel Grrls. Digital cameras, laptops and easy-to-learn software have made learning the basics of animation easy and fun. Students will be able to experiment with a variety of props to learn stop-motion techniques, claymation...and of course, storytelling.

Bellevue Community College Summer Science Camp

The Summer Science Camp seeks to instill a sense of enthusiasm and inquisitiveness about science in 5th and 6th graders. We offer "hands-on, minds-on" experiences in a variety of scientific disciplines, including astronomy, biology, botany, chemistry, earth science, physics and more.

Camp Cornet

Camp Cornet is located 9 miles south of Anacortes on Highway 20 in the Deception Pass State Park on Whidbey Island. The camp is in a beautiful setting on the shores of Cornet Bay with several lakes nearby. As exceptionally well-trained staff work to provide campers with the highest caliber of programs and care. Staff members include Specialists in Nature, Arts & Crafts, Swimming Supervision and Recreation, an Activities Program Coordinator, a Health Officer, trained volunteer counselors and a dedicated Head Cook and Kitchen staff working alongside the Director and Assistant Camp Director. Mike Rommel serves as director with 4 years of experience at Camp Cornet and years of experience in Whatcom County sports programs.

Camp Fire (Day Camp)

Day Camp is about doing, not watching. It's about enjoying nature and living outdoors, and working together with kids from a variety of socioeconomic, racial, cultural, religious and disabled populations. Together the youth share common experiences while at camp, and learn to focus on similarities and abilities. Mutual respect and trust form between campers as they rely on one another.

And as campers receive praise and encouragement from their counselors and their peers, they grow in self-confidence and competence, with social skills and friends that last for years to come.

Camp Fire (Camp Sealth)

Located on 1.5 miles of beach on Vashon Island, Washington, Camp Sealth's pristine location provides areas for beach and water activities. The 400 acres of woods filled with trails, wildlife and remote campsites provides the setting for daily adventures. Fun, friends and new adventures away from home create a valuable and memorable experience. Each child brings home a new sense of self-confidence, independence, teamwork and social skills that last a lifetime. The entire Camp Sealth staff is dedicated to enriching children's lives.

Camp Invention

Camp Invention is a week-long summer enrichment day program offered in local communities for children entering first through sixth grades. Participating daily in five activity-oriented thematic modules, children enhance their understanding of science, math, history, and the arts while having lots of fun. This exciting program invites children to let their imaginations run wild through teamwork, creative problem solving, and inventive thinking.

Camp River Ranch

River Ranch offers a variety of programs for all girls including swimming, boating, crafts, environmental education, outdoor skills and outdoor cooking. In addition, specialty programs include horseback riding both English and Western, biking, backpacking, leadership, and drama. We have a diverse staff that is committed to a positive experience for all the campers.

Camp Robbinswold

All programs at Camp Robbinswold include swimming, boating, crafts, marine biology, outdoor skills and outdoor cooking. Specialty programs include the arts (dramatics, pottery, etc.), windsurfing, sailing, biking, llama tripping, backpacking and leadership. We have a diverse staff with a variety of these skills.

Camp St. Albans

A summer overnight experience for individual girls. Camps run from 4 to 14 days and include activities like arts, nature, horses, water, boating, leadership, adventure tripping, and general camp fun.

Camp St. Albans (One Day Events)

Come to camp for just one day! These ten one-day events for girls 7-12 are held at Camp St. Albans from 10:00 am to 5:00 pm in the summer. Each day is full of activities like boating, swimming, and arts & crafts, as well as a specific focus for the day.

Canoe Island French Camp

Organization: Canoe Island French Camp was founded in 1969 and today is a non-profit organization dedicated to sharing the French language and culture with youth in a healthy outdoor environment. Canoe Island French Camp is accredited by the American Camp Association and is a member of the Western Association of Independent Camps.

Mornings at camp are devoted to French language classes and activities: fencing, French cuisine and culture, archery, theater, art, and photography. In the afternoon campers choose each day between swimming, sailing, kayaking, archery, art, rock climbing and sports, all with French vocabulary. Campfires, theatrical and musical productions, beach cookouts, camp-wide games, and astronomy fill the evenings. During the three-week sessions campers board an exploratory vessel to seek orca whales other wildlife that inhabit the Salish Sea. A gala Bon Voyage Banquet and talent show end each session.

Children's Technology Workshop – Animation Club Workshop

Make an animated movie! Develop a story, create characters, and design a set and props. Then use a webcam and stop motion software to film the footage and add titles, credits, narrative, music and sound effects to create the perfect production. We'll celebrate with a film festival on Thursday!

Children's Technology Workshop – Gamemaker Workshop

Design an age-appropriate non-violent video game! At the end of the week, you'll take home a CD-ROM containing your game files so you can play at home.

Children's Technology Workshop – Robotics Club Workshop

Ready for a whole new level of fun? Check out Robotics Club! This workshop introduces kids to construction techniques and programming as they complete LEGO-based control systems and robotics projects.

College Quest

Experience the excitement of university life – from dorm to classroom – during this motivating and exciting pre-college program. Ambitious high school students complete a real college course, gain valuable “success in college” information, and form extraordinary social connections that come with life in a residence hall. College Quest will bridge the gap between high school and college and put you on a path to personal, educational and career success.

Cougar Quest - WSU

Cougar Quest is a summer academic camp on the campus of Washington State University designed especially for young people entering grades 7 through 12 in the fall of 2009. It is an exciting week-long camp where you choose your route to discovery. Your days will be filled with hands-on activities led by world class Washington State University faculty. At Cougar Quest, learning is fun! When Cougar Quest workshops end, exploration of the Washington State University campus begins with social and recreational activities. We look forward to sharing an exciting and memorable week with you this summer.

DigiGirlz

DigiGirlz is a summer technology camp for girls in grades 9 through 12. The mission of the program is to introduce High School girls to the many career fields offered within the High Tech industry. This is an exciting five-day experience offered to high school girls. During the camp, DigiGirlz have the opportunity to participate in a number of different opportunities including Xbox game testing, Microsoft Studio broadcasting and Product development and marketing.

DigiPen

DigiPen Institute of Technology, the leader in video game development education, presents a summer workshop series designed to introduce participants of all experience levels to the fundamentals of game programming and 3D computer animation. Held at the DigiPen campus in Redmond, Washington, the two-week workshops are also ideal for those considering a serious career as video game programmers or 3D artists or computer engineers. Now in its 15th year of offering the summer workshops, DigiPen is pleased to invite middle school, high school and college students to experience DigiPen training in a fun 2-week workshop. Ultimately, all of DigiPen's workshops are taught by knowledgeable instructors who strive not only to teach the relevant material but to also provide an engaging experience for all students involved!

Discovery Park Nature Daycamp

It's now time to register for Discovery Park's Nature Daycamp! Give your child a fun and interesting summer by exploring the wonders of nature in Seattle's largest green space. Nature Daycamp is extremely popular and fills up very quickly.

Earthkeepers Day Camp

Are you looking for a summer program that allows your child to create, imagine, explore, discover, play, learn and shine? Then the Carkeek Park Environmental Learning Center's summer camp programs are just what you've been looking for! Our caring, trained naturalists will help open a world of discovery for your child using the unique outdoor classroom environment of Carkeek Park.

ECO – On the Go!

Join us for an exciting journey to explore and learn about the different ecosystems in Edmonds. We will venture out each day to learn about the natural world, what's in it, and how everything is connected. There will be crafts and games to make it fun! Supply fee of \$4 to be paid to instructor on first day.

Edmonds Day Camp

Get ready for a summer of awesome projects, field trips and amazing camp experiences! Each camp week is filled to the maximum with new and exciting games, crafts and more!

Giant Campus Summer Computer Camps

All of our programs share the same goal: to inspire kids and teens with technology while engaging them in 21st century skills such as creativity, problem solving, communication and collaboration.

Girls Make Media That Matters

Reel Grrls hires advanced participants to create outreach videos for Seattle-area nonprofit organizations. Participants deepen their video production skills and build professional experience as they work with their clients and their teams.

Girls on Ice 2009 Expedition

Girls on Ice is a unique, FREE, wilderness science education program for high school girls. Each year a team of 9 teenage girls and 3 instructors spend 11 days exploring and learning about mountain glaciers and the alpine landscape through scientific field studies with professional glaciologists, mountaineers, and artists.

iD Tech Camps

iD Tech Camps provides week-long day and overnight technology camps for students ages 7 to 17. Students may register for one or several weeks. You'll find us at the most distinguished universities, including Stanford, Princeton, UCLA, Northwestern, MIT, and the University of Cádiz, Spain. Each iD location boasts hand-selected and personally-trained staff, a unique collegiate experience and stimulating courses delivered in small "clusters" averaging just 6 students. Each summer camp season is loaded with brand new real-world curriculum and technology inspired by the biggest names—Adobe®, Apple®, Canon®, HP®, Macromedia®, Microsoft®.

Junior Beach Rangers

Five days of activities, games, and crafts aimed at encouraging exploration of the seashore environment. Learn about tides, tidepool animals, seaweed, and birds of the seashore.

Junior Naturalists

Meet at various Edmonds parks and beaches for outdoor activities such as animal tracking, nature journaling, stream and wetland investigations, tidepooling, games and crafts.

Kids Digital Photography

Do you love taking pictures? Want to improve your shots? Learn photography concepts and camera operation while taking a lot of pictures in a positive, fun environment. Each student must bring a digital camera and manual to class each day.

LEGO Engineering Camp – Pre-Engineering

Create, play and learn with LEGOS®. Build a town, city or star base with houses, building, pyramids, bridges, tunnels, towers and more. Build motorized cars, trains, buses, and trucks; race them; crash them; repair them. Explore the many possibilities of LEGO® building systems while learning useful construction techniques.

LEGO Engineering Camp – Engineering Fundamentals

Using LEGOS®, design and build motorized machines, catapults, pyramids, demolition derby cars, truss and suspension bridges, buildings and other constructions.

Mad Science Camp

Mad Science camps are designed for exciting fun hands-on science activities. Your child will become a junior scientist for the week, having the opportunity to experience a variety of science explorations. We use an inquiry-based technique that allows even the youngest camper to enjoy learning. Children will design, create, build and assemble a variety of interesting projects and will take at least one project home every day. We provide most everything your child will need. For full day camps, please provide a lunch and snacks for your child; for half day camps please provide a snack for your child. Children should dress comfortably and come ready to have fun!

Marine Summer Camps

The Seattle Aquarium offers a variety of engaging summer programs for kids and their families. You're sure to find the right program to suit your child's interest in the marine world. See you this summer!

Math, Science & Leadership Program

The mission of The MSL Program is to encourage, motivate, and inspire students to pursue and succeed in science, technology, engineering, and mathematics (STEM) fields by accessing higher education.

Nature Camp

Seattle Audubon has a long history of safe, fun and educational summer enrichment programs, where children and teens can learn about birds and nature in a challenging and caring environment.

NOAA Science Camp

Held at NOAA's Seattle facility at Sand Point, these five-day summer camp sessions offer opportunities for seventh and eighth graders to explore marine sciences and have fun at the same time. Participants are introduced to earth and ocean sciences and to science careers through hands-on activities emphasizing solutions to real-world problems.

The camp was established in 2003 through a partnership between Washington Sea Grant and NOAA's Western Regional Center in Seattle. Because of the continuing popularity of this program, two sessions of camp will be offered in 2009.

On-Line Computer Camp

Giant Campus offers project-based technology camps and workshops delivered entirely online. Our online courses feature hands-on learning sessions; one-on-one mentoring from a subject matter expert; social time. Using our proven online classroom platform, participants easily log in from anywhere each day for intensive sessions of instructor-led demonstrations, practice sessions and project time.

Pacific Science Center

Pacific Science Center camps are the perfect place to explore, experiment and discover! Our exciting and enriching camps are available at three locations including Pacific Science Center in Seattle, Mercer Slough Environmental Education Center in Bellevue and at St. Thomas School in Medina.

Passages NW

At Passages Northwest, we believe strong girls and women are forged from powerful experiences. Since 1996, we have inspired over 2,800 girls and women to discover courage within themselves through outdoor exploration. Whether rock climbing in Oregon, backpacking near Mount Rainier, or sea kayaking in Puget Sound — we offer unique, fun, and creative ways for girls and women to develop their creative, inquisitive, and physical courage, create dynamic relationships, and cultivate self-discovery.

Passages Northwest, a non-profit organization, strives to build a supportive community. We welcome diversity of background, identity and opinion and work to keep our programs accessible to all girls and women: In 2002, over 50% of our participants received full scholarships.

Nine girls and three instructors travel to beautiful and natural places for five to twelve days to build their own community. Along the way, girls rock climb, backpack, and sea kayak and explore their creativity while developing new friendships and lifelong memories. Girls return from these courses with the confidence to express themselves, pursue their dreams and create positive change in their communities.

Pee-Wee Beach Rangers

Get ready for some fun at the beach! Ranger-Naturalists will lead hands-on exploration of the beach and tidepools, with an emphasis on child safety and caring for delicate sea creatures. Lots of engaging activities included. Parent participation is welcome.

Power of Hope

The Power of Hope programs are for youth and young adults who want to take an active role in creating a positive future, develop their leadership skills, build stronger communities and have a great time in the process!

We are a non-religious, non-profit organization operating in Washington state and British Columbia. We offer multi-day programs for youth in the summer and during the school year. Our Youth Voices programs in Seattle, Bellingham and Victoria, BC offer youth ways to connect to the Power of Hope through in-school and after-school programs that offer experiential and nontraditional learning opportunities. We also offer workshops and trainings for adults who want to expand their skills in using creativity in their work with youth.

In all of our programs, we encourage youth to discover their own creativity and sense of purpose and to develop their leadership skills as they return to their communities and speak out about issues that matter to them and become community change makers.

Reel Grrls at Centrum Summer High School Arts Camp

Centrum's 2009 Summer High School Arts Camp presents filmmaking, mixed media sculpture, creative writing and theatre under the guidance of an international and culturally diverse group of artists.

Reel Grrls Video Camp

Make your first short video with Reel Grrls! Learn the basics of storyboarding, camera operation, audio recording, and video editing with Final Cut Pro. Complete a movie in four days in an all-girl, non-competitive environment, getting hands-on experience with state of the art technology and support from adult women mentors.

Reel Queer

Make a video in four days with queer and questioning youth media makers. Explore issues of gender, sexuality, and representation in the media, then learn the tools to make your own media in response to these issues. No prior video production experience required.

Rite of Passage Journeys

Join Rite of Passage Journeys for a fun, challenging, and life-changing wilderness adventure! Cultures around the world have marked life transitions with difficult and impactful experiences for young people to "prove their mettle" and gain knowledge about the responsibilities and privileges of the next life phase. Yet our modern culture often leaves a gap, and young people are sometimes unsure about what it means to be a teenager of an adult.

In a variety of programs refined over a 40-year history, Journeys fills this need. Our programs provide a unique coming of age experience, a chance to reflect and grow in a community of peers, mentors, and elders. Designed for a range of age groups with different developmental needs, our programs will find you exploring some of Washington's most beautiful and natural areas, whether traversing high Cascade passes or investigating tidepools on the rocky coast. Join us for an experience you'll never forget!

Secret Agent Lab

Go inside a scientist's lab and discover the secrets you've always wondered about! Develop your skills as a crazy chemist and make sidewalk chalk and bath fizzers. Compare fingerprints and discover the mysteries of DNA. Build a cell city in a petri dish, and travel the organ trail to uncover the secrets of your own body. Ever wonder about mucus? Find out how it keeps us well, and use your forensic skills to solve the "Great Cookie Caper"!

Skate Like a Girl

Spend a week skating with other gals learning the fundamentals and gaining the experience and confidence to keep tearing up the concrete. Starting with board maintenance, balance, and ground tricks-- skaters will also get introduced to street skating as well as riding ramps and bowls. Both beginners and experienced girl skaters will also love the other activities SLAG offers throughout the week, which include silkscreening T-shirts, and load the van to skateboarding at different skate parks!

Summer Day Camp at the Arboretum

Arboretum Adventure Camps offer children the unique chance to explore the Washington Park Arboretum. Each day Arboretum staff focus on a different topic such as the "life cycle of plants" or "animals and adaptations." Throughout the week children learn about plants, the ecology of the Arboretum's wetlands and the importance of environmental stewardship.

Summer Day Camps (UW)

Summer Youth Programs offer unique summer learning opportunities for elementary children, middle school students, and high school students. Make the most of your kids' summer by enrolling them in one of the University of Washington's Summer Youth Programs.

Our programs are taught by experienced educators and involve hands-on learning in a fun and engaging manner. Students will learn about everything from toy design to brain science and botany.

Summer Day Camps (Skagit County)

Youth and teens will participate in educational activities, learning opportunities, outside play and games, staff-lead activities, cooking fun, cooperative games, community service, science projects, game room tournaments, reading fun, arts and crafts projects, fitness fun and much, much more!

Summer Programs for Youth (SPY)

Investigate, probe and discover a fascinating topic through hands-on activities, lab experiments, field trips and more at Western Washington University's SPY summer camps. If that's not enough, experience college living in a "real" dorm, enjoy your meals in the "all-you-can eat" cafeteria and play in the award-winning Wade King Student Recreation Center. After class you will swim, climb the rock wall and more. Live on-campus for the week or commute daily.

Summer Science Day Camp

We offer comprehensive programs that build on partnerships among parents, teachers and schools to help build a solid foundation of science literacy. Our programs are designed to encourage children by establishing their curiosity in science and providing a foundation that will motivate them to continue expanding their interest in science throughout their education. By empowering our students in science we can encourage them to develop the skills they will need to succeed in the 21st century.

Summer Zooper Day Camp & Zoo U

We offer two different camp curricula so your camper can attend one or two weeks (sessions are denoted by A and B). In week A "Animal Olympians," we will explore the amazing things animals can do. In week B "Kingdom of Animals," children will discover how animals are classified into groups such as amphibians, reptiles, mammals and birds.

Western Kids Camp

Kids learn and play during theme-inspired weeks of this fun filled day camp. Campers combine academic enrichment and recreational activities to maintain what they learned during the school year and build new skills. Themes include nature, science, diverse cultures, the arts, and more.

Students utilize college classrooms, labs, equipment, playing fields, and the award-winning Wade King Student Recreation Center. WWU education graduates and students who possess specialized knowledge and experience lead the activities and supervise the children.

YMCA Camps

Are you ready for a summer of fun? We have a variety of programs that will inspire your child in a safe and supportive environment that is convenient and close to home! Whether your child enjoys rock climbing, art, science or horseback riding, the YMCA has a summer program for you! You can count on our skilled, well-trained staff to provide fun, safe and exciting activities for your child. All of our summer programs are geared to encourage participation and teach the values of respect, responsibility, honesty, caring, faith and fun.

YMCA - Camp Orkila

Camp Orkila is located on the northwest tip of Orcas Island in Washington State and is perfect for exploring rugged beaches, calm bays and neighboring San Juan Islands. Camp Orkila's 280 acres face Presidents Channel and the Canadian Golf Islands and are the backdrop for the most colorful sunsets imaginable. Our preserved forest and private beach are the setting for an extraordinary range of outdoor activities.

YMCA - Camp Colman

Camp Colman, what place could be better for new friendships and adventure? All of the tree-house-style cabins are perched along a wooded ridge and have fireplaces, bunk beds, complete bathrooms and private sun decks with a view of our lagoon. We also have a Yurt and a tent platform area for older campers. Our octagonal shelter provides the perfect program area in case of damp Washington days. Anderson Lodge is a beautiful eight-sided dining hall and multi-use facility with floor-to-ceiling windows and a great view of our saltwater lagoon and Puget Sound. The antique iron triangle rings outside the Lodge rustling up all the campers to a hot breakfast. During the camp day, our energetic leaders accompany each cabin group on all of their adventures. Leaders are college students or graduates and often have progressed through the camp's leadership program. Their goal is for all campers to sample as many of the exciting programs as possible. The personal staff attention allows all campers individual recognition. A highly trained teen leader who receives intense staff training assists each cabin leader. Traditional camp skits, songs, storytelling and comedy acts highlight our twilight campfire each night. The day ends with campers and staff singing a closing song with their newfound friends and a song that has been sung every summer since 1912.

YMCA – Patsy Collins Adventure in Leadership for Girls (PCAL)

PCAL is a residential leadership camp that empowers girls with the self-confidence to lead, the generosity of spirit to give back to their communities, and the awareness to live a healthy and balanced life. Girls participate in adventure activities such as rock climbing and attend workshops focused on leadership skills. Group projects strengthen team building and create lasting friendships.

YMCA – PCAL in the City

PCAL in the City is a new day-camp program incorporating goals of Leadership, Service and Wellness into 4 days of leadership workshops, teambuilding activities and guest speakers.

YMCA – B.O.L.D. – Boys Outdoor Leadership Development (formerly known as YBOYS)

Boys Outdoor Leadership Development (BOLD) is an outdoor education program of the Metrocenter YMCA that develops multi-cultural leadership skills in young men through wilderness experience. Our 5 to 16 day backpacking, rock climbing, and mountaineering expeditions provide an opportunity for young men from different economic, ethnic, religious and social backgrounds to build multi-cultural leadership, communication, and decision making skills through shared challenges, problem solving, and fun.
