Do you wish your student could ride a bike to school? Are you concerned about safety and routes? Do you wonder how to get their musical instruments to school on their bike?

Join us for an informative evening. Cascade Bicycle Club Education Foundation staff will be on hand to present a recent **community bike audit**, offer **tips and suggestions** for bike safety and commuting, and **answer questions**.

Hear from middle school **families** who bike to school, even with musical instruments, to help you feel confident in sharing the **joys of bicycling** with young people.
