The Math Questionnaire: Part 2

Please answer the following questions so that I can learn more about you and your math background.

1. Which teacher did you have for math last year?

2. How did you do in math last year? How well do you expect to do this year?

3. Name at least one thing that you did in math class last year that you liked. Why did you like it? (Note: "nothing" is not an acceptable answer!)

4. Name at least one thing that you did in math class last year that you did not like. Why didn't you like it?

5. When and where do you usually do your math homework?

6. When you are stuck on a math homework problem, what do you usually do?

7. How consistently do you complete and turn in your homework on time? Explain.

8. On a scale of 1 to 10, rate yourself as a math student. Explain.

9. Name a goal that you have for yourself for this school year.
